

**Attention Original GreenStar Autotrac
System Owners!!!!!!**

Deadline to upgrade to GS2 is near!!!

**Must have GS2 on order by December 31, 2009 and
the transfer must be made by March 31, 2010.**

John Deere recently announced the cancellation of the Autotrac Transition Program effective March 31st, 2010. This program allowed customers to transfer the autotrac activation from the Original System Keycard to a new GS2 2600 or 1800 display. Once this program ends, customers will not be able to transfer the autotrac activation from the keycard to a new GS2 screen. If the customer wishes to buy a GS2 after March 31st, a new activation will have to be purchased. New GS2 must be in stock or on order by Dec. 31, 2009.

**Please see your local Sloan Implement AMS
Consultant for more info!!!!**
