BULK DELIVERY PROGRAM

**SLOAN
IMPLEMENT**
BULK OIL DELIVERY

Sloan Implement has 2 Bulk Oil & 3 Bulk DEF Delivery Trucks to handle deliveries for all of our customers throughout Illinois and Wisconsin!

FREE DELIVERY ON BULK DEF & BULK OIL!

Oil and diesel exhaust fluid are vital to keeping your fleet running, but your supply only needs to be replenished so often. That's why Sloan Implement offers hassle-free bulk oil and DEF delivery directly to your location throughout Illinois and Wisconsin!

Benefits Of JD 15W40 Plus50 II:

- >> Up to 500 hour change interval when used on newer JD Engines
- >> Can use in over the road diesel engines
- >> Meets requirements for newer Tier IV Emission Engines
- >> Low ash formula
- >> Meets JDQ78X engine requirements

Quick Facts On DEF:

- >> Extremely Corrosive
- >> Only Has A 2 Year Shelf Life
- >> Best Stored Between 12° and 86°
- >> Easily Contaminated Which Can Ruin Sensors

Bulk Delivery Benefits

- >> Lower Cost
- >> Free Delivery
- >> Pick Up Of Used Oils
- >> Convenience
- >> Genuine John Deere Oil

Sloan Implement reserves the right to limit Bulk Oil Service to customers within our area of responsibility. To see if you're eligible, contact a Sloan Implement Parts Representative to check availability of this service in your area.

JOHN DEERE AG MANAGEMENT SOLUTIONS

Call our Support Center at 217-693-6209

Data Management Service

Stop the hassle of pre-season setup of display information and software updates. Let us get your machine ready!

- >> Organize your Farm & Field names to make sure they are consistent across all displays and all operations.
- >> Organize Guidance Lines & Boundaries.
- >> Enter New Varieties & Chemicals, Clean Up Unused Products.
- >> Help Setup Team Members.
- >> Get Displays Loaded With All Of Your Setup Data.
- >> Download Information From Display, clean up data, print variety maps, yield maps and reports.
- >> Setup Variety Locator & AutoPath™ Files.
- >> New Data Card/Flash Drive included for each crop year.
- >> Insure machine is properly equipped to execute prescriptions/documentation.
- >> Training on how to use the shape file converter, prescription import function on the display and Ops Center Mobile App.
- >> Update the software on all your displays and receivers.

DATA MANAGEMENT SERVICE

\$500 Per Crop Year

John Deere AutoPath

Accurately document and follow each row in the field throughout the season!

- >> Use data from the first pass, either strip-till or planting, to automatically create full-field guidance lines for secondary passes such as planting, spraying, and harvest.
- >> Setup time for secondary operations is faster and crop damage is reduced as guidance is based on actual planted crop rows.
- >> Know which rows to start on, regardless of equipment width, even in down crops.
- >> Available as part of the Automation 4.0 Package.

Field Mapping

Stop the hassle of creating guidance lines each time you enter the field!

Our Boundary/Guidance Line Service Includes:

- >> Mapping out lines
- >> Run boundaries on fields
- >> Run guidance lines on fields
- >> Clean up field names, guidance lines & boundaries

FIELD MAPPING

Minimum Acreage Required

\$2.00/acre

Help Us Help You & Keep Your Fleet Connected!

We are making it easier than ever to connect machines and stay connected at no extra cost. Fully unlock the power of Operations Center so you can manage operations from anywhere when it matters most with remote management, wireless machine and field data connection, analysis tools, and much more. Turn on JDLink connectivity on new, current, and even future machines.

- >> Help us track where your equipment is for quicker field repair.
- >> Allow us to see your trouble codes to send the right tech with the right parts.
- >> Provide us with expert alerts to fix known smaller issues before potentially significant repairs are required.
