

Data Management Service

Stop the hassle of pre-season setup of display information and software updates. Let the Sloan Implement AMS team get your machine ready.

For more information please call the
Sloan Support help line
@ 1-217-693-6209

\$500/ crop year

Our Mapping Service Includes:

- Update the software on all your displays and receivers
- Organize your Farm and Field names to make sure they are consistent across all displays and all operations to avoid confusion amongst operators
- Get your displays loaded with all your setup data including Farms, Fields, Clients, and Varieties for the Spring season and the Fall Season
- Download all information from display and print maps
- Present maps/reports in an organized binder
- Assist with integrating prescriptions from Agronomist to display for variable rate application with applicable equipment
- Assist with exporting data to agronomist
- Setup Variety Locator for automatic variety detection and recording
- New Data Card/Flash Drive included for each crop year
- One on one training
- Insure machine is properly equipped to execute prescription/documentation goals
- Upload your historical data to MyJohnDeere.com if you would like to access your data from anywhere using an internet capable device or computer.
